SunModo’s best-selling EZ Roof Mount is the industry standard for PV system mounting on any composite shingle roof.

Now, SunModo introduces our latest innovation, SoloFlash™. The mount consists of only three components and is installed onto the roof in just three easy steps.

**The SoloFlash Advantage**

- The most economical flashing on the market
- 6 levels of protection against water penetration
- High-Velocity Hurricane Zone Approved - Passed TAS 100 (a) Wind-Driven Rain Test
- Quick to install with only three components
- One tool assembly

DON’T LEAVE MONEY ON THE ROOF
**Key Features of SoloFlash™**

**Application**
Composite shingle and rolled asphalt

**Material**
High grade aluminum, 304 stainless steel hardware

**Finish**
Silver or black powder coating

**Flashing Size**
9 x 12 inch

**Roof Attachment**
Rafter only

**Structural integrity**
IBC and IRC Compliant

**Warranty**
25 years

---

---

6 levels of protections against water penetration

- 360-degree L foot positioning, serrated surface on both sides for rail mounting
- Cone-shaped design diverts water from roof penetration
- Integrated Ultra Soft Weather Resistant EPDM gasket
- Stamped emboss feature stiffens the flashing to minimize bending
- Alignment markers enable easy installation
